This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

MINNESOTA STATE GAZETTEER

AND

BUSINESS DIRECTORY.

When a sufficient time shall have elapsed, the publishers will issue a second edition of this work. They now announce that it will be one of the most complete publications of the kind ever issued in any State. Many new and valuable features will be added, amongst which may be mentioned a complete Shipper's Guide of Minnesota. The sketches of the towns and villages will be prepared with great care, and will embrace all that may be worthy of note, the price of land, the crops, stage communication and fare, &c.

With the most ample facilities for conducting an enterprise of this magnitude, with the knowledge that it supplies a real want, with the belief that if the work be properly done it will be liberally supported by the people of the State, the publishers will spare neither money nor labor in making the second edition of their Gazetteer a work creditable to the State of Minnesota.

INTRODUCTORY.

The fifteenth volume of the City Directory, being the first issued by the present publishers, is herewith presented to the public. While they have endeavored to maintain the standard of accuracy of the Directories issued by their predecessor, Mr. W. M. Campbell, whose works were compiled with more than usual care, it will be observed that such changes have been made as in their opinion tend to improve the general features of the work. Neither effort nor expense has been spared in making the Directory reliable and satisfactory. In each succeeding edition continued improvement will be aimed at by the publishers, one of whom has recently removed to the city, and will make it his future home. A permanent office has been established at No. 122 East Third street, where Directories of the principal cities of the United States and Canada are kept on file for the use of citizens and strangers visiting the city.

POPULATION.

Those most competent have estimated the increase of population for the past year at figures termed by some too high, but the facts as shown in this edition of the Directory fully sustain their estimate.

The total number of names in this volume is 15,580. To form an accurate estimate of the population, we make the liberal reduction of six per cent., or in round numbers 1,000 names; the remaining 14,580 multiplied by 3½, the usual multiple, gives us 51,030. In taking as a basis for population our average, 3½ per name, we find that we are as a rule rather under than over the estimate, as derived trom other sources. For instance, the Directory of 1871 contains 5,652 names, which by our method of calculating shows the population to have been 19,782, while the United States census for 1870 gave the city 20,030, 248 more than the Directory.

It has been particularly observed, that many dwellings marked as vacant when the first canvass was made, were occupied by permanent residents who had come in from other cities and States before the second visit. It will appear from the increased number of names in this edition of the Directory, the school enumeration and from other sources, that there has been a remarkable increase of population within the past year.

The city is to be congratulated on the public improvements she has made and is making, and on the many important enterprises that have been undertaken and are yet to be developed within her borders before the close of the year. Reference to our building statistics will give a fair idea of what is going on in that direction.

ST. PAUL TO-DAY.

At no period in the city's history has the outlook been brighter. A most bountiful harvest has just been gathered throughout the vast agricultural region tributary to us, and this entire northern and northwestern country, the development and growth of which during the past few years have been so rapid, seems about to enter upon an era of still greater prosperity. Already the trade of the city is greatly stimulated, and business in all departments is most active. The extension of our railway lines, now being so vigorously carried forward, is opening a wider field for our commerce, and calling for increased facilities for trade. To meet these constantly growing demands improvements of great magnitude are being made, and others are to be commenced in the near future. Scarcely a week goes by but that an entirely new

Digitized by Google

enterprise of importance is inaugurated. The utmost confidence in the city's rapid growth pervades all classes, while few venture to estimate the possibilities of her future. Nor is this confidence confined to our own community. It is shared almost universally by the large number of strangers who have been among us this summer, especially by those who have visited the country traversed by our railroads, and who have witnessed its vast extent and limitless resources. The following exhibit of the city's affairs to-day is certainly most gratifying. In the increase of population, the vigorous condition of business, the improvements begun and projected, the finances, the bright prospect for the immediate future, we can all take a pardonable pride.

MUNICIPAL GOVERNMENT.

The city of St. Paul is divided into six wards, each of which is represented in its Common Council by two Aldermen, except the fourth ward, which has three Aldermen, and the sixth ward one. It has a paid fire department, running four steamers, with a like number of hose carts, and a force of forty-five men, exclusive of one Chief, one Assistant and one Superintendent of Fire Alarm; its police force consists of one Chief, one Captain, one Sergeant and twenty-eight patrolmen, which is increased from time to time as occasion may require, by the appointment of specials. It has a Board of Public Works, consisting of three members, with a clerk, who are charged under the direction of the Common Council, with all matters pertaining to the streets and sewers of the city. Connected with the Board of Public Works, and acting under its direction is an Engineering Department, consisting of one Chief Engineer, three Assistant Engineers and a sufficient force of subordinates to make it effective. A Board of Health, consisting of one health officer, a City Engineer and the senior Aldermen of each ward, and two Assistant Sanitary Inspectors; a Municipal Court, which, in addition to an exclusive criminal jurisdiction within the city, has a civil jurisdiction to the amount of two hundred dollars; and, with but one exception, its taxes are less than any city in the West, being but thirteen mills on the dollar for all purposes upon an assessed value of about one-half of the real value, and its last issue of bonds sold at a premium of one and thirty-seven hundred (1.37) per cent. above par.

CITY FINANCES.

From the report of the City Comptroller, we are enabled to present the following financial standing of the city:

Total credit	$1,426,177.67
Total debit	1,426,177.67
Total liabilities	1,360,855.98
Total assets	867,035.45
Liabilities over assets	493,820.53
Total revenue receipts, including balance on hand Jan. 1, 1877	417,157.57
Total expenditures	357,351.97
Balance in hands of City Treasurer, January 1, 1878	59,805.60

Following is the assessment of real and personal estate in the City of St. Paul, for the year 1877:

Real estate valuation	$18,993,545
Personal estate valuation	5,452,871
Total valuation	24,446,416

Being about 50 per cent. of the cash valuation.

The tax on the personal estate valuation is divided equally (one sixth) to each ward, in the distribution of tax collections.

Total amount of outstanding city revenue bonds, January 1, 1878,	$504,815.77
Total amount of preferred city bonds	59,210.00
Total amount of 8 per cent. city bonds	268,125.00
Issued to St. Paul & Chicago Railroad Company (6 per cent.)	100,000.00
Total amount of outstanding bonds issued to the Lake Superior and Mississippi R. R. Co	200,000.00
Outstanding city bonds (local improvements)	100,000.00
Outstanding city bonds (Como Park)	100,000.00

Digitized by Google

TAX LEVY, YEAR 1878.

State Purposes	2 40-100	mills.
County "	2	"
City "	6 36-100	"
School "	2 24-100	"
Total tax levy for all purposes	13	mills.

Assessed valuation of real and personal estate, at about fifty per cent. of the cash valuation $23,061,000

It will be seen the taxes of St. Paul are very light, a remarkable showing for a rapidly growing city. The administration of the municipal government has certainly been economically managed.

FIRE DEPARTMENT.

The officers of this important branch of the city's affairs, are the Mayor, President of the Council, and a committee of six. The chairman of the committee on fire department, reports the following expense account for the year ending April 30th, 1879:

Repairs and other sundry outlays	2,812.81
Two horses for No. 4	450.00
One horse and wagon for Chief Engineer	175.00
New material, permanent supplies	1,151.78
Repairs to houses	61.93
Salaries of full paid men	15,780.00
Salaries of half time men	4,150.00
Total	$24,581.52

FIRE ALARM TELEGRAPH DEPARTMENT.

Expenses of battery, etc	$91.78
Extension of lines and new material	281.89
Salary of Superintendent	300.00
Total	$25,255.19
Credit by cash for old material sold	91.70
Balance	$25,163,49

VALUE OF PROPERTY, ETC.

The total appraised value of property belonging to the department April 30th, 1879, was 75,281.29

Total amount of hose on hand, white anchor, reliable, 3,450 feet; not reliable, 3,355 feet; aggregate, 6,805 feet.

FIRES.

There have been during the year 88 fires and alarms, being an increase over 1877 of 18. Of this number 69 were actual fires, 10 chimney and 9 false alarms.

Total loss of property	$84,699.16
Total insurance paid	69,357.29
Loss over insurance paid	$15,341.87

The losses are less than the year 1877 by over ten thousand dollars, with an increase of fires, which can but be attributed to the efficiency of the department. The above inclues all fires in the city limits, many of which were beyond the water supply, therefore out of the reach of the department.

The apparatus have traveled on duty during the past year 703¼ miles.

Digitized by Google

The engines have delivered 47,282½ barrels of water, 78,600 feet of hose have been laid, and water put through 72,550 feet.

SALARIES OF DEPARTMENT.

Chief Engineer, "full time"	$ 1,200.00
Assistant Engineer, "fire service"	500.00
Superintendent Telegraph	300.00
Four engineers of steamers, $1,000	4,000.00
Four firemen of steamers, $720	2,880.00
Four drivers of steamers, $720	2,880.00
Four drivers of hose reels, $720	2,880.00
One driver Hook and Ladder truck	720.00
One tillerman	720.00
Five foremen of companies, $300	1,500.00
Seventeen hose and ladder men, $240	4,080.00
Total	$21,660.00

Total number of men in department, 42.

The fire department is very efficient, and owing to the rapid growth of the city, the force and apparatus require frequent augmentation and the utmost vigilance on the part of the members. A fire warden is one of the important adjuncts of the department, and to his watchful care the city is largely indebted for her security from conflagrations.

WATER SUPPLY.

The numerous lakes about St. Paul, connected with each other, furnish an abundant supply of water for the city. The number, with their surface acres, are as follows: Phalen, 237; Gervais, 210; Vadnais, 560; Lambert, 750; Pleasant, 730; White Bear, 3,600; Bald Eagle, 1,280; Lake Elmo, 400; Otter Lake, 400; other lakes, 560. Total number of acres of water, 8,727, —add other lakes available, and there are 10,000 acres of water with which to supply St Paul. A single superficial foot of this immense area, would furnish 4,000,000,000 gallons of water, or a barrel per day, for three years, to each of 100,000 people. These lakes are the center of a water shed of 160,000 acres.

The city is now supplied by two mains, one 16-inch main and one 24-inch main. The company have twenty miles of pipe laid—6 miles of 4 inch pipe, 8 miles of 6-inch pipe, and balance in 12, 16 and 24-inch pipes. There are 155 hydrants; 135 water valves. About three miles of water mains are laid in tunnel, excavated in the sand rock, and used exclusively by the water company. 115 meters are used to measure water for large consumers. Have 1,400 consumers. Number of men employed, on an average, 30. Cost of the works, $500,000.

Two more lakes have been added to the supply source this season, making ten in all now available.

EDUCATIONAL.

For the following valuable statistical information of the public schools of Saint Paul we are indebted to Prof. B. F. Wright, Superintendent, for the year ending June 30, 1879. In educational advantages it will be seen Saint Paul compares favorably with many cities of more advanced years and of greater population:

Total enrollment during the year	4,008
Average number belonging	2,963
Average daily attendance	2,785
Average per cent	93
Per cent. of pupils attending High Schools	5
Per cent. of pupils attending Grammar Schools	6
Per cent. of pupils attending Intermediate Schools	22

Digitized by Google

Per cent. of pupils attending Primary Schools	67
Cost of tuition, including salaries and incidentals, per pupil on enrollment	$16 01
Average monthly salary of teachers—males	100 00
Average monthly salary of teachers—females	55 00

SCHOOL HOUSES.

Number of school houses owned by board used for school purposes	11
Number of school houses rented	1
Number of school buildings owned by board and rented for other than school purposes	1
Number of school rooms	80
Number of sittings	3,668

SCHOOLS.

High School	1
Grammar Schools	6
Intermediate Schools	33
Primary Schools	26

TEACHERS.

Number of principals—High Schools	1
All other schools	11
Number of primary principals	6
Number of assistants—High School	8
All other schools	57
Number German teachers	2
Number penmanship	1
Total	86

HIGH SCHOOL.

Number of pupils enrolled	203
Number of teachers	9
Number of graduates	132
Number studying Latin	125
Number studying Greek	23
Number studying French	28
Number studying German	55

VALUE OF SCHOOL PROPERTY.

Buildings and grounds	$250,328
Apparatus and library—High School	1,000

COST OF TUITION.

Whole amount paid for tuition and incidentals	$64,055 95
Cost per pupil on number enrolled	16 10
Cost per pupil on average number belonging	21 61

NEWSPAPERS AND PERIODICALS.

Eighteen newspapers and periodicals represent the political, religious, commercial, scientific, agricultural, temperance, social and other interests of St. Paul. Daily Journalism is represented by the *Pioneer Press* (Independent,) the *Globe* (Democratic,) the *Dispatch* (Republican,) the *News* (Independent,) and the *Hotel Reporter*, printed in the English language, and by the *Die Volkszeitung* in German.

PUBLIC LIBRARIES.

The city enjoys the advantages of three public libraries, aggregating 28,000 volumes. First on the list is the State Law library, a choice collec-

Digitized by Google

tion of law book publications, of not only America but of Europe also. It numbers 12,000 volumes.

The library of the State Historical Society numbers 8,000 volumes, many of them of a quaint and curious literary nature.

The City Library is conducted upon the subscription principle, or in other words it is styled a subscription library. It numbers about 8,000 volumes.

MARRIAGES.

The number of marriage licenses issued since the 3d day of January, 1879, is 246.

BIRTHS.

The total number of births, as obtained from the health inspector for the year ending June 30, 1879, is 887.

The above statement is believed to be under the facts more than 10 per cent. The inspectors find it a very difficult task to keep track of these delicate subjects. They freely admit that no inconsiderable number must have escaped their observation.

DEATHS.

The total number of deaths for the year 1878, from the various causes, was 462; of this number 213 were over the age of 20.

BUILDING IMPROVEMENTS.

From the most reliable information obtainable, there being no means of ascertaining the exact number, it is estimated that more than 1,000 houses and blocks have been built, and are in course of construction within the city limits the present season, aggregating a cost of over $1,000,000. This interest has greatly increased the present year, and before January, 1880, other important public and private building enterprises will have assumed form.

The new market house, now being built, when completed and furnished, will have cost $70,000. The various railway companies are making extensive improvements within the city limits that will amount in the aggregate when completed to more than a $1,000,000.

RAILWAY SYSTEM.

Saint Paul has reason to be proud of her magnificent railway system. Fourteen roads virtually converge in the city, and more than one hundred trains arrive and depart daily.

The St. Paul & Sioux City Company is extending its lines one hundred and ten miles this season. The Fort Dodge Branch, from Lake Crystal, Blue Earth county, to Blue Earth City, Faribault county, a distance of thirty-four miles, will be completed before 1880. The Black Hills branch is being pushed ahead from Heron Lake, forty-six miles, in the direction of its destination. From Lu Verne, Rock county, they are building the Rock River branch southward, and before the coming January they expect to have thirty miles completed through that fertile valley. In addition they will make $100,000 worth of improvements in the city of St. Paul, building depots, machine shops, grading and other work.

The St. Paul, Minneapolis & Manitoba road is being extended via Fergus Falls to Barnesville, a distance of eighty-five miles. Another branch is being built from Fisher's Landing to Grand Forks, Dakota, fifteen miles. This company is building besides three and a quarter miles of double track from the city up to the Lake Como crossing, and putting down rails to the fair grounds. Steel rails are being laid on this road all the way from St. Paul to St. Cloud. The company is also spending large sums in grading their St. Paul yards, building extensive depots, rebuilding the old depots along the line, forty or fifty bridges, and a vast amount of other work requiring an outlay that overtops a million dollars.

The Northern Pacific will span a hundred miles of country beyond the Missouri, and prepare for another season's campaign, still on up the eastern slope.

Digitized by Google

The Chicago, Milwaukee & St. Paul will complete their air line between the two cities, at a cost of $500,000; and they are pushing on out across Dakota with two other lines. This company will soon begin the erection of extensive depots and other improvements in the city, requiring an expenditure of large sums of money.

In addition to these enterprises by each of the various roads, they have all combined to build here a Great Union Depot, the plans for which are about perfected, and upon which work will soon begin. It will be one of the largest and most costly structures of the city, and upon a scale commensurate with the increasing traffic of the Commercial Metropolis of the New Northwest.

THE

CHEAPEST DAILY PAPER

IN THE NORTHWEST.

THE ST. PAUL DAILY NEWS!

A Six Column Paper, filled with the Latest News and Choicest Selections.

18 COLUMNS OF READING MATTER DAILY!

Furnished by mail, Post-paid, at the unprecedentedly Low Price of

THREE DOLLARS PER YEAR!

Or ONE DOLLAR FOR FOUR MONTHS.

The Daily News is a non-partisan paper, though not neutral in politics. It aims to give the political news without party bias. Public men will be criticised and their actions commented upon without regard to which party they may belong, always aiming to do justice to all.

HACK ORDINANCE.

RATES OF FARE AUTHORIZED BY CITY ORDINANCE RELATIVE TO PUBLIC CARRIAGES, ETC.

The price to be charged by the owner or owners, or their drivers or employees, of any hack, carriage, cab, or other vehicle, for the conveyance of passengers for hire, within the city of St. Paul, shall be as follows: For conveying a passenger anywhere in the city, fifty cents; for every additional passenger of the same party, twenty-five cents. But omnibuses shall not charge more than twenty-five cents for each passenger carried less than half a mile. For children between five and fourteen years of age, half the above rates; children under five years of age, no charge shall be made. Every passenger shall be allowed to have conveyed on said vehicle, without charge, his or her ordinary traveling bag-

Digitized by Google

gage, not exceeding one trunk and twenty-five pounds of other baggage, free of charge. These rates must be kept posted inside of every licensed vehicle that is intended for the conveyance of passengers.

Upon complaint before the City Justice, the offender may be fined fifty dollars for violating the provisions of this ordinance.

English and Classical School.

The third year of this school will open

MONDAY, SEPTEMBER 8th, 1879,

And close

FRIDAY, JUNE, 18th, 1880.

With a vacation of two weeks at Christmas, and another of one week at Easter.

The school embraces two departments, primary and advanced, the former sitting from 9 a. m. to 12 m., and the latter from 1:30 p. m. to 4:30 p. m.

IN THE PRIMARY DEPARTMENT

Instruction will be given in the English branches, Latin, French and Drawing,

IN THE ADVANCED DEPARTMENT,

Boys will be prepared for the Classical or Scientific Departments of Harvard, Yale, Cornell and other Colleges, or will be given a Business Education. For the latter purpose a Department of Penmanship and Book-keeping has been added to the school. *Girls* will be prepared to meet the requisitions of the "Harvard Examinations for Women," the scope of which is exhibited in the following quotation from the Circular issued by the committee in charge: "The Examination is intended as a careful test of proficiency in a course of elementary study of a liberal order, * * * * It applies the same standard of judgment in determining the success and excellence of the work offered, as would be used if judging similar work if done in Harvard College. It is, therefore, strongly recommended to all girls who wish to test their progress by a strict and publicly recognized standard, or in a range of subjects wider than the ordinary school courses include." This school, having been placed in communication with the committee, will be furnished with the questions in June, 1880, and will use them with such pupils as are prepared upon one or more of the subjects. The attention of parents desirous of educating their girls at home "by a strict and publicly recognized standard," is particularly called to this announcement,

TERMS:

Primary Department, $60 per annum; Advanced, $80 per annum; payable in three equal installments, Oct. 1, Jan. 1 and April 1. No extra charges whatever. Pupils received by the year only.
